

Quality Sales Co., Inc.

Customer Information

Tubs

- Tubs need to be delivered after the house is dried in and the doors and windows are hung, but before the sheet rock is hung.
- Quality Sales prefers the tub to be installed against the studs, but this is not mandatory.
- Quality Sales can normally get any tub through a 24" door opening.
- Quality Sales tub heights will fall between 19" and 20". The tubs require a 16" to 18" overflow. (called a Tall Boy Drain)
- If a tub is to be installed upstairs, please inform us ahead of time so we can bring adequate help.
- The tub will be set in the bathroom by Quality Sales. The plumber will slide the tub into its proper place while connecting the drain. The plumber is responsible for leveling the tub.
- If Quality Sales is to drill holes for a deck mount faucet we will need advance notice, the faucets and the customer at the jobsites.
- To clean cultured marble, please refer to Quality Sales Care Instructions.
